Care 660 Cleanflush® Easy Height with Armrests

The **Caroma Care Armrest** has been specially designed and developed with durability and flexibility in mind, whilst adding a high level of comfort and support to the elderly or those with restricted movement. The armrest has been integrated into the **Care 660 Cleanflush® Easy Height** wall faced close coupled toilet suite design with no structural wall installation work required. The Caroma Care Armrest can be individually locked in both up and down positions and can withstand a system load of 160kg of downward force. Stainless steel arms provide superior strength and durability while ergonomic hand grips promote maximum comfort. The added hygiene of the Cleanflush® rimless flushing system makes the range ideal for hospital, aged care and commercial applications where the absolute highest levels of hygiene and rapid cleaning are required. For more information refer to www.caroma.com.au.

Pan/Suite: **Care 660 Cleanflush® Easy Height** wall faced close coupled toilet suite
Installation: Armrest integrated into toilet suite design. The robust armrest frame is concealed inside the pan - No structural wall installation work required.

Features:

- Armrest can lock in both up and down positions.
- Toilet roll holder can be interchanged from left to right side.
- Stainless steel for infection control and strength.
- Contoured armrest pad with integrated lock release button.

Colour: Stainless steel with white armrest pad.

Seat: Includes **Caravelle Care** double flap or single flap seat in Caroma White (W), Sorrento Blue (SB) or Anthracite Grey (AG). Solid section compression moulded seat with solid stainless steel hinges plus rotatable buffers for extra stability during sideways transport.

Dimensions: All dimensions are in millimetres and are subject to normal manufacturing variations. Caroma pursues a policy of continuing improvement in design and performance of its products. The right is therefore reserved to vary specifications without notice.

Note: This suite is not suitable for AS1428.1 installations.
